MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service

Web Soil Survey URL:

Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Okmulgee County, Oklahoma

Survey Area Data: Version 11, Sep 15, 2016

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Jan 28, 2011—Apr 2, 2011

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Okmulgee County, Oklahoma (OK111)			
Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
Bu	Verdigris silt loam, 0 to 1 percent slopes, frequently flooded	29.3	24.2%
Dt	Larton-Glenpool complex, 8 to 20 percent slopes	23.7	19.6%
EuB	Glenpool fine sand, 0 to 3 percent slopes	59.6	49.3%
Vg	Verdigris silt loam, 0 to 1 percent slopes, occasionally flooded	1.1	0.9%
Vp	Verdigris-Madill complex, 0 to 1 percent slopes, frequently flooded	7.4	6.1%
Totals for Area of Interest		121.0	100.0%
